FINNISH TIME TRACKING

Time tracking made in Finland – with your data kept in Finland.

Finnish company, proven experience

J. Halttu Oy, Vantaa. Our developer spent 8 years selling and developing Tuntinetti.fi – hundreds of rollouts at firms with 5–500+ employees.

Servers in Finland

The app database and backups are located in Finland. All data stays in the EU, GDPR and DPA ready.

Finnish rules built in

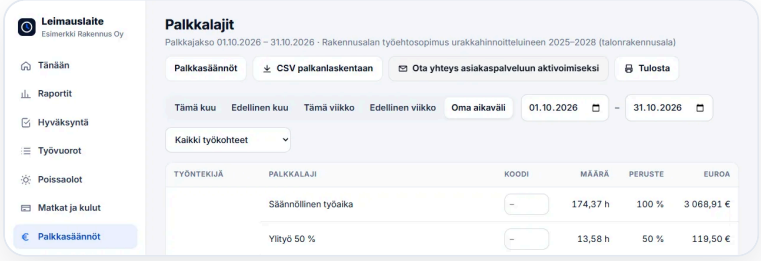

20 Finnish collective agreements, Working Hours Act records, public holidays, Annual Holidays Act and flexitime.

Phone first – hardware if needed

Browser or phone as standard. For a fixed point: NFC tags or the Finnish Rollock TIME 4G punch clock.

What you can do with it

- Clock in with a browser or phone – NFC tag, kiosk or punch clock for a fixed point
- Pay types under the collective agreement: overtime, supplements, Sunday work
- Flexitime, holiday and absence balances
- Approval, locking and reminders
- Site personnel list and Tax Administration report
- Procountor and Netvisor integration, REST API and webhooks
- Staffing: client approval and invoicing report per client
- Employee view in five languages

Simple pricing

1–3 employees	**€0**
4–15 employees	**€29/mo**
16–50 employees	**€69/mo**
51–150 employees	**€149/mo**
Staffing	**€49 + €3.90/person**

Excl. VAT. No setup fee, no commitment. Staffing: €3.90 per employee with entries in the month. Punch clock €975 + €10/mo.
